

EUROPEAN SKI & SNOWBOARD SCHOOL

European summer camp 2018

The European Ski and Snowboard School boasts over ten years of experience in the Les Deux Alpes area. The school is now offering summer camps for children, from 8 years old, to spend a week with our instructors doing sport and having fun in a wonderful French Alpine setting.

Sport

This camp aims at giving you a 360° sports experience. Three mornings will be dedicated to skiing on the glacier at 3600 metres above sea level. On each of these days there will be a ski lesson with a maximum of four skiers per group, and groups will be divided according to the technical level.

The rest of the week includes mountain trekking with packed lunch, navigation and safety lessons, and many other activities such as white-water rafting, Adventure Park, paintball, trampolines, etc.

Example weekly plan (The program can vary according to weather and snow conditions)

*Activities: rafting, paintball, adventure park, skateboarding, slackline, paragliding, trampolines, canoeing/paddling, diving, summer luge, beach volley, beach soccer, golf/mini golf, swimming, climbing, trekking, tennis, mountain bike, downhill and much more!

The aim of this camp is to combine sport and fun with study and education because, as we all know, you learn better when having fun!

The camp provides a native French-speaking teacher for three to four days, two hours per day, to help the young people with their homework and provide French conversation and language practice. During all the activities, the children are accompanied by our instructors who speak three languages fluently (Italian, English and French). They will be able to assist with learning the vocabulary related to skiing and the mountain environment.

Our Chalet

Our Chalets are in the centre of the town, a very short walk from the main street. They offer easy access to the whole resort on foot and are just five minutes' walk from the main lift, the "Jandri"! There is a big garden and a recreation area with table tennis, trampolines and slackline: ideal to have fun or relax at the end of the day.

Our 6-seat outdoor Jacuzzi is available to enjoy.

We offer a range of one- to four-bedded rooms.

A resident chef cooking Mediterranean cuisine will provide breakfast, lunch and dinner.

Free Wi-Fi is always available.

Safety

Safety is one of the ski school's most important priorities. Our camp offers complete supervision of the children during all our activities, morning and afternoon. At night the children will stay in the same chalet as their instructor. Insurance for the whole week is included in the price.

We prefer to have a brief phone interview with the children's parents before enrolling.
